Announcement from Quest Investments Limited of 6 February 2009

We have been provided with the attach Profit Warning Announcement to the Australian Stock Exchange by our subsidiary Quest Investments Limited ("QST"). The QST announcement states that the QST expects that "its net loss attributable to members of the parent entity after tax for the six months to 31 December 2008 to be about \$400,000 compared to a profit of about \$102,000 for the previous corresponding period."

We are pleased to advise that notwithstanding the aforesaid loss of QST that Murchison Holdings Limited ("MCH") anticipates that its net profit attributable to members of the parent entity after tax for the six months to 31 December 2008 will be significantly higher than the net profit attributable to members of the parent entity after tax for the six months to 31 December 2007 of \$210,000.

This update is subject to audit review by the Company's external auditors.

The directors are disappointed with the expected results of QST, which QST has advised is in large part attributable to weakening investor confidence as a direct flow-on from the global economic crisis - revenue from the Company's Hong Kong stockbroking business were significantly lower than for the previous corresponding period.

6 February 2009

The Company is pleased that it has entered into its diversification programme which should in future reduce its dependence upon the Hong Kong stock broking business for much of its revenue.
